SSC delivers the critical information you need to make informed business decisions. SSC delivers security consulting, implementation and investigative services within complex and sensitive business environments.

Internal and external threats have always been a reality of life. Today, in addition to these challenges there are significant economic and regulatory factors which are driving senior executives to re-think security and the protection of assets. We help develop methods that align security criteria for physical and technological mitigation of vulnerability with the fundamental aspects of risk management.

Across the spectrum, SSC protects businesses and helps them succeed. SSC has the applicable business insight and real-world experience to anticipate, understand and respond to unique and specific security threats. Our clients are able to operate from a position of strength and security, regardless of the business type or where it is globally.

- Security Policies and Procedures Development
- Security Project Management
- Threat Mapping and Scenario Building
- Homeland Security and Counter-Terrorism

Specialized Training Services for Security and Law Enforcement

Security threats are no longer confined by geography or business type. The diffuse nature of threats to business, individuals and security forces require that corporations, businesses and those in security roles possess a broad range of skills and a clear understanding of their role. As the scope, diversity and magnitude of threats continues to evolve, so does the degree of professionalism expected from those involved with security responsibility.

SSC delivers specialized training course instruction in a number of mission-critical areas:

- Questioning & Interviewing Techniques
- Counter-Terrorism/Suicide Bombing Prevention Training
- Management of Aggressive Behavior
- Surveillance Detection
- Corporate Intelligence Collection
- Executive Protection Planning
- Travel Security Planning
- Information Security Awareness
- Behavioral Pattern Recognition (Specialized Israeli Program)
- Tactical Training: Law Enforcement, Private Security, SWAT Teams

SSC Training Programs can be delivered at our training facilities or at the customer's site.

Course delivery methods include:

- Classroom Training
- Tabletop Exercises
- Full-Scale Functional Workshops
- Red Team Exercises
- Role Playing & Real Life Simulations
