Uniformed Security Services

A security partner that provides the best security personnel is essential for protecting your business or facilities from external and internal threats. Turn to the knowledgeable security specialists at SSC for a holistic, best practices approach to ensuring the safety of your human capital, safeguarding your assets and controlling access to critical resources.

SSC takes a proactive approach to security by reducing vulnerabilities and proactively managing risk. We provide a full range of security solutions using a unique multi-disciplinary approach. This approach includes an objective examination of existing protective measures and identification of vulnerabilities.

Reduce vulnerabilities with a professional security company.

- SSC protects your most valuable assets.
- Achieve a safe and secure work environment.
- Meet regulatory requirements.
- Avoid the consequences of security breaches — legal liability, employee morale, lost business, loss of corporate value, loss of sensitive information, impact on your business reputation.

Corporate Intelligence and Investigation

Discover the value of an integrated security and investigative services firm. An integrated approach to corporate security, compliance and risk is a growing trend for excellent reasons. More and more companies are learning that this approach enables them to not only meet and exceed security program and regulatory requirements, but also to enhance work environments and improve profitability. SSC provides a unified strategy that leverages the overlap between security and investigative activities and how each element ties to an effective corporate security program.
